#### **Another Local Medical Practice Receives Funding to Upgrade Infrastructure**

Amanda Rishworth MP, Federal Member for Kingston welcomed the news that another local medical practice in Southern Adelaide is set to benefit from \$500, 000 in funding provided through the Australian Government's *Primary Care Infrastructure Grant* scheme.

Ms Rishworth said "With the addition of Seaford Day and Night Clinic to the other five local practices announced earlier this week, I am delighted that so many of our local practices will receive grants to upgrade their facilities and equipment.

"Patients can expect to see big changes at local GP clinics, thanks to the grants announced by the Gillard Government.

"These grants will help local doctors to expand the services they offer to our community so that more families and residents in the South have better access to quality primary health care."

Ms Rishworth said that delivering this funding is just one of the ways in which the Gillard Government is delivering on their health reform agenda.

The announcement of these grants follows legislative support to establish the National Preventative Health Agency, achieve over \$1.9 billion in savings to the Pharmaceutical Benefits Scheme and the historic move to provide access to the Medicare benefits for eligible nurse practitioners and midwives.

The primary care infrastructure grants are part of the Government's 2010-11 Budget commitment of \$355.2 million over three years to improve primary health care infrastructure. The commitment includes up to \$233 million for additional GP Super Clinics.
